

Global Patient Services

Innovating care.
Transforming lives.

Welcome to Sidra Medicine

A message from:
Dr. Lyabo Tinubu-Karch, Chief Executive Officer, Sidra Medicine

At Sidra Medicine, we offer more than just world-class medical care within our state-of-the-art facility. We reignite hope and healing for women and children seeking specialized treatment.

Our renowned physicians are leaders in their fields, delivering compassionate care, personalized medicine, and pioneering research that leads to better outcomes for our patients. This commitment is why we have welcomed hundreds of patients and their families from around the world. When you choose Sidra Medicine, you are selecting a partner dedicated to your well-being and peace of mind throughout your healthcare journey.

We believe that your path to better health should be a positive experience. While traveling for healthcare can seem daunting, our dedicated Global Patient Services team is here to ensure your experience is seamless and supportive every step of the way. From your initial contact to your return home, we provide personalized assistance tailored to your needs, allowing you to focus on what matters most—your health or your child's health and well-being.

Your Personalized Health Concierge

We understand that seeking medical treatment abroad can add significant stress. That's why we are dedicated to providing comprehensive, compassionate care that extends beyond our hospital walls.

Our multicultural and multilingual Global Patient Services team is your trusted partner throughout your healthcare journey. We are here to support you every step of the way, ensuring your experience with us is as smooth and comfortable as possible.

We help you keep your medical journey as stress-free as possible by offering a range of services designed to support you every step of the way:

- Appointments and scheduling
- Second opinion consultations
- Medical records and treatment plan coordination
- Hospital admission process
- Cost of care estimates and financial counseling
- Access to health records on the patient portal
- Pharmacy refills for post-care in the home country
- Air ambulance services
- Reservations for long-term and short-term accommodations
- Language interpreters
- Childcare services
- Leisure, tourism, shopping, and entertainment

Effortlessly Connecting You to Healthcare

Through our partnership with Qatar Airways, we offer tailored services to meet your specific needs at every stage of your stay in Qatar. The Qatar Airways support team is available 24/7 to provide personalized assistance to you and your family. Whether you need to modify your flight reservations, extend your stay, arrange a driver for the day, make restaurant bookings, or access special services, Qatar Airways is here to ensure your convenience and comfort at all times.

For more information about our partnership with Qatar Airways and to book your journey, please scan the QR code or email holidays@qatarairways.com.qa.

Your Gateway to Exceptional Care

Sidra Medicine offers personalized care, ensuring a seamless experience for all our patients. Our diverse team of over 3,500 staff members from more than 80 countries is committed to supporting you throughout your healthcare journey.

Before Your Visit: You will be matched with an international medical concierge who speaks your preferred language. They will coordinate your appointments, handle insurance, arrange transportation, and assist with hotel bookings. Virtual consultations are available before you arrive in Qatar.

During Your Visit: A culturally sensitive care coordinator will accompany you to your appointments, providing comfort and support throughout your visit. Our patient experience team ensures you stay informed and feel at ease, with access to international news and internet services.

After Your Visit: Your coordinator will ensure you receive all necessary medical records and follow-up instructions. We provide clear billing and financial counseling to ensure transparency and peace of mind.

At Sidra Medicine, we are more than healthcare providers; we are your dedicated partners, delivering exceptional care every step of the way.

Why Choose Sidra Medicine?

International

Sidra Medicine partners with leading educational and research institutions, including Weill Cornell Medicine, Qatar. These collaborations allow us to carry out targeted research projects and initiatives, furthering the advancement of world-class healthcare and medical research.

Second Medical Opinion

For those who are unable to travel or prefer to seek advice from the comfort of their homes, we offer remote second opinions. Our specialists will review your medical history and current diagnosis, providing valuable insights to help you make informed decisions about your care.

Patient Referral

We offer flexibility in patient care by accepting both clinician referrals and self-referrals for treatment, ensuring easy access to world-class healthcare services for everyone.

Medical Interpretation and Translation Services

Our certified interpreters are committed to enhancing health literacy and helping you understand what matters most. We provide interpretation in Arabic, Arabic Sign Language, Chinese, English, French, Korean, Russian, and Turkish.

Plus, our language assistance via phone or video is available in 66 languages, including American Sign Language, Bengali, Hindi, Nepali, Pashto, Persian, and Urdu, among others.

Safety and Privacy

We understand that seeking healthcare abroad requires trust. That's why we have created an environment where your safety, privacy, and peace of mind are our utmost priorities.

Our Global Patient Services are designed with a strong emphasis on confidentiality and security. Your information and records are only accessed by authorized personnel and medical professionals, especially assigned to take care of you. This means you can focus on what matters most - your health.

Payment Information

We believe in transparency and want to ensure you have all the necessary information upfront. Our experienced staff will guide you through anticipated charges for our services and work with you, your embassy, or assigned government liaison representatives to facilitate payment in advance of your first consultation or appointment.

Revolutionizing Global Healthcare

Step into the future of healthcare, where **innovative technology** and **world-class facilities** combine to offer an unparalleled patient experience. Our **state-of-the-art infrastructure** empowers our multidisciplinary teams to deliver **precise, personalized, and compassionate care** in an environment designed for healing.

From **advanced diagnostic tools** to **cutting-edge surgical suites**, every aspect of our facility is crafted to uphold the highest standards of safety, comfort, and medical excellence. **Here, healthcare is not just advanced—it's transformative.** Welcome to the forefront of medical innovation.

Leading the Way in Cardiac Care

At our Heart Center, we provide world-class, personalized care for both children and adults with congenital heart defects. Our multidisciplinary team combines cutting-edge surgical, interventional, and medical treatments to ensure the best outcomes for every patient. From **pediatric congenital heart disease** to acquired **cardiac conditions**, we deliver expert care at international standards.

We consistently **benchmark our outcomes** against leading programs in the United States of America to maintain the highest standards in cardiac care.

The team includes cardiothoracic surgeons, interventional cardiologists, electrophysiologists, imaging specialists, and a dedicated support staff, covering every aspect of heart care from diagnosis to recovery. We are not just treating heart conditions; we are redefining the future of cardiac care.

Neurosurgical and Epilepsy Care

Our Neurosurgery team offers specialized, individualized care for children with neurological conditions such as **hydrocephalus, spina bifida, and vein of Galen malformations**. Using advanced technology and **minimally invasive techniques**, our pediatric neurosurgeons perform innovative treatments like DRIFT for **hydrocephalus** and **dorsal rhizotomy** for **cerebral palsy**, significantly improving patient outcomes. We collaborate closely with other specialists, including neurologists, oncologists, and rehabilitation experts, ensuring holistic care for every child.

Our **Epilepsy Program** achieves outstanding results, with 83 percent of patients becoming seizure-free after surgery, and 70 percent are maintaining freedom from seizures after a year. We offer a range of advanced treatments, including **epilepsy surgery, dietary therapies** like the ketogenic diet, and **neurostimulation therapies** such as VNS. Our state-of-the-art diagnostic facilities, including a six-bed Epilepsy Monitoring Unit and advanced imaging techniques, guide treatment for various epilepsy forms.

Innovative Gastrointestinal Services

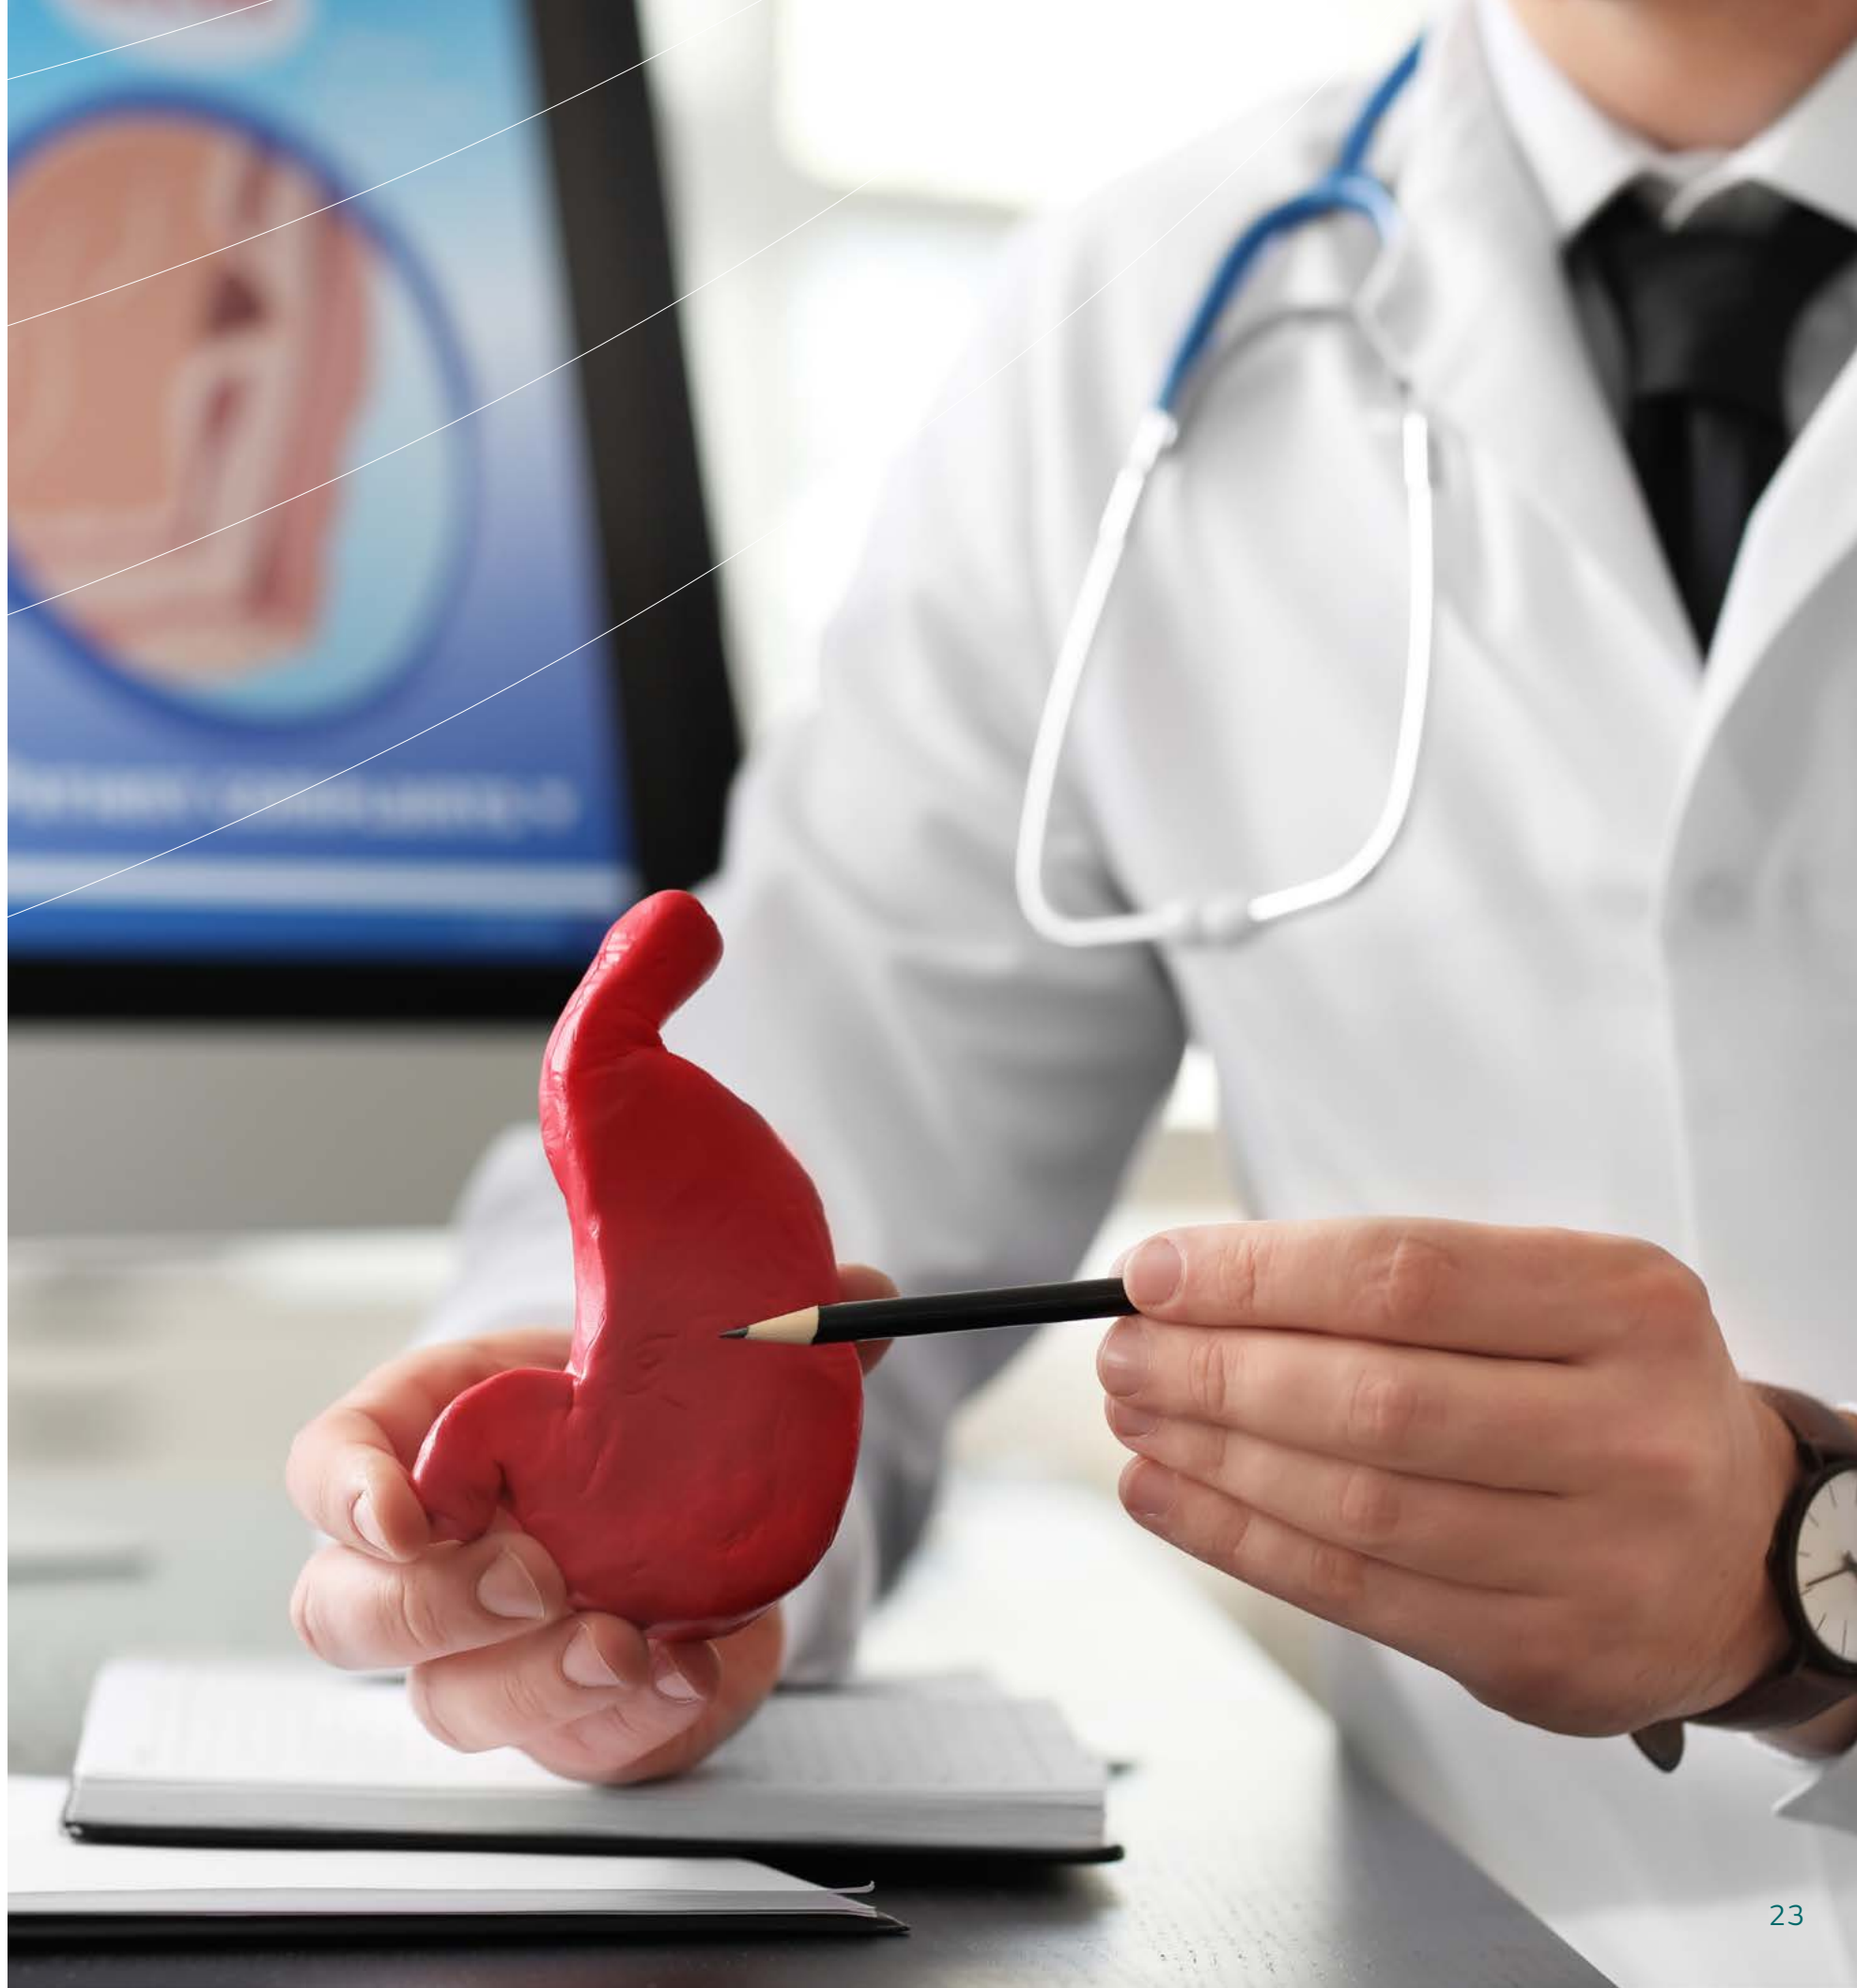

We offer specialized care for children with various gastrointestinal (GI) conditions, providing personalized treatment plans to ensure optimal health outcomes and quality of life. Our **multidisciplinary team**, including pediatric gastroenterologists, nutritionists, and specialized nurses, addresses conditions like **inflammatory bowel disease, celiac disease, gastroesophageal reflux, and constipation**.

Our world-class **Short Bowel Service** focuses on children with complex GI conditions, using advanced bowel lengthening surgeries and nutritional therapies to improve health outcomes. Building on the expertise of our Short Bowel Service, which focuses on advanced bowel lengthening surgeries and personalized care for children with complex gastrointestinal conditions, Sidra Medicine extends its comprehensive care to a wide range of pediatric surgical needs through our **General and Thoracic Surgery** division. This division plays a crucial role in treating complex conditions, offering the latest surgical techniques and a collaborative, multidisciplinary approach to care.

General and Thoracic Surgery

Our General and Thoracic Surgery division specializes in treating complex pediatric conditions using the latest surgical techniques. The team is part of the **National Surgical Quality Improvement Program (ACS-NSQIP) Pediatric**, a renowned initiative aimed at improving surgical care by tracking outcomes such as surgical complications, recovery times, and hospital stays, ensuring we consistently deliver optimal results for our patients.

We provide comprehensive care for a wide range of conditions, including **chest wall deformities, diaphragmatic hernia, neonatal ECMO, and gastroesophageal reflux disease**. With advanced capabilities in **intestinal rehabilitation, robotic surgery, and neonatal surgeries**, Sidra Medicine offers cutting-edge treatments for children with complex congenital and acquired conditions.

Our multidisciplinary approach includes specialized clinics for **colorectal, short bowel, and aerodigestive disorders**. We also manage pediatric oncology cases, childhood gynecology, and other specialized thoracic and gastrointestinal conditions. Through minimally invasive and robotic techniques, we prioritize precision and strive to achieve the best possible outcomes for every child.

Gene Therapy Center

Sidra Medicine is leading the way in neuromuscular care in the region, offering groundbreaking gene therapies for **Duchenne muscular dystrophy** (DMD) and **spinal muscular atrophy** (SMA). We bring new hope to patients and families by targeting the underlying genetic causes of these conditions, with the potential to slow or halt disease progression and improve muscle function.

In June 2024, Sidra Medicine became the first hospital in Qatar to administer gene therapy for DMD. By October 2024, we achieved another milestone, becoming the first hospital outside the US to administer Elevidys gene therapy to children with DMD over six years old.

Sidra Medicine is committed to advancing treatment through research and innovation. Our **clinical trials program** explores new therapeutic options, driving global progress in the understanding and treatment of neuromuscular diseases.

Pediatric Otolaryngology Care

Our Otolaryngology Division offers expert care for **complex pediatric airway surgeries, advanced head and neck conditions, hearing rehabilitation, and rhinology conditions.** As a quaternary surgical unit, we manage both congenital and acquired conditions in children up to 18 years of age.

Our multidisciplinary team, including pediatric intensivists, airway anesthetists, speech and language therapists, pediatric audiologists, and a dedicated tracheostomy care team, ensures the highest standard of care for every patient.

We provide specialized clinics for **tracheostomy care, craniofacial management, sleep, otology, speech and swallowing, and audiology.** Advanced services include **pediatric airway reconstruction, thyroid and parathyroid surgeries, swallowing disorders, and hearing rehabilitation.** We also offer comprehensive care for congenital and acquired otologic and rhinology conditions, with a multidisciplinary approach to conditions like **sialorrhea.**

Neonatology Care for Newborns

Our Neonatology Division provides the highest level of care for newborns, including those with **complex conditions**. We offer specialized care for critically ill or premature infants, supported by a team of neonatologists, nurses, respiratory therapists, and allied health professionals.

Our NICU is equipped with **advanced technology**, enabling interventions for conditions like **congenital diaphragmatic hernia, neonatal seizures, and complex cardiac defects**. A family-centered approach ensures that parents can bond with their infants in single-family rooms, while our FINE program offers developmental support for both infants and families.

We also offer **specialized follow-up** clinics for high-risk infants, including home-based parenteral nutrition, and utilize data-driven practices from the Vermont Oxford Network to continuously improve care.

Pediatric Ophthalmology Care

Sidra Medicine is a leading provider of pediatric ophthalmology services in Qatar, offering a full spectrum of care led by fellowship-trained pediatric ophthalmologists, orthoptists, optometrists, and pediatric nurses. Our team is committed to delivering expert care for a wide range of eye conditions, ensuring that children receive the highest level of specialized treatment.

We perform advanced surgical procedures, including **strabismus surgery, cataract surgery, lid surgery, and treatments for watery eyes**. Our state-of-the-art diagnostic capabilities, such as visual field testing, corneal topography, and optical coherence tomography, allow for precise identification and monitoring of eye conditions.

Our services cover common **pediatric eye disorders, strabismus, eye infections, dry eye, allergic eye conditions, and ocular complications related to systemic diseases like diabetes and arthritis**. We offer specialty clinics for general pediatric ophthalmology,

strabismus, cataracts, and diabetic eye screening. Additionally, our multidisciplinary team collaborates with departments like Neurology, Craniofacial, and Rheumatology to provide comprehensive care.

Our outcomes for cataract and strabismus surgeries consistently exceed international standards, with treatments benchmarked against the Royal College of Ophthalmologists and the American Academy of Ophthalmology.

Restoring Mobility through Orthopedics

At Sidra Medicine, we are committed to providing the highest standard of pediatric orthopedic and rehabilitation care. Our integrated approach combines cutting-edge technology with expert clinical care, ensuring that each child receives the most effective treatment tailored to their needs.

Our **Pediatric Orthopedic** program includes advanced services such as our **Gait Laboratory Clinic**, where we use motion analysis to assess and address lower limb abnormalities. The **Infant Hip Clinic** ensures early diagnosis with state-of-the-art imaging, while the **Ponseti Clinic** specializes in correcting complex foot deformities like clubfoot. Additionally, our **Fracture Clinic** offers immediate, expert care for fractures to ensure optimal recovery.

Our operating rooms are equipped with the latest surgical systems, enabling advanced procedures such as limb lengthening, deformity correction, and spine surgery. Post-surgery, we provide child-focused rehabilitation in collaboration with physical therapy and child development specialists, ensuring seamless continuity of care.

Sidra Medicine's **Rehabilitation Medicine** program plays a critical role in this holistic approach, offering a comprehensive range of services to help children regain

independence and transform their lives. Our **board-certified pediatric rehabilitation specialist** is the only one of its kind in the region, leading a multidisciplinary team that includes physiatrists, therapists, and rehabilitation nurses. Together, we provide individualized treatment plans, leveraging advanced therapeutic equipment to meet each child's unique needs.

With a family-centered approach, we focus on empowering children through targeted interventions and offering strong family support, creating a nurturing environment for recovery. As a regional leader in pediatric rehabilitation, we continually advance our practices through research and education, providing exceptional care that positively impacts the lives of young people.

Comprehensive Pediatric Dental Care

At Sidra Medicine, we provide comprehensive, multidisciplinary care for children with **dental, craniofacial, and orthodontic needs**, ensuring the best outcomes through innovative treatments.

Our expert pediatric dentists and orthodontists work closely with maxillofacial surgeons and plastic and craniofacial specialists to address a wide range of conditions, from routine check-ups and restorative treatments to **complex dental and craniofacial cases**. This collaboration ensures a seamless, holistic approach to care, especially for children with congenital anomalies or medical conditions requiring specialized intervention.

We offer solutions for conditions such as **cleft lip and palate, craniosynostosis, facial asymmetry, obstructive sleep apnea**, and other **craniofacial deformities**. In addition, we employ advanced techniques such as **cranial vault distraction osteogenesis** for optimal surgical outcomes.

For children with complex needs, our team provides **personalized treatment plans**, preoperative counseling, and post-operative support, keeping families involved at every step.

Pediatric Urology

Sidra Medicine's Urology team provides specialized care for children with urinary and genital conditions, focusing on individualized treatment plans to ensure the best possible outcomes. Our pediatric urologists address a wide range of conditions, including **congenital abnormalities, urinary tract infections, enuresis, bladder dysfunction**, and complex conditions such as **bladder exstrophy**. For children with bladder exstrophy, we offer expert **reconstructive surgery** to restore bladder function and support normal development, using advanced techniques to ensure the best long-term results.

We collaborate closely with pediatric specialists in other disciplines to provide comprehensive care, using state-of-the-art imaging, robotic surgery, and non-surgical interventions. This multidisciplinary approach allows us to tailor treatment plans to meet the unique needs of each child. Additionally, our **Pediatric Kidney Transplantation Program** delivers expert care for children with chronic and end-stage kidney disease, achieving outstanding outcomes, including 100 percent graft survival.

Clinical Trials Program

At Sidra Medicine, we are entrusted with the care of Qatar's most precious resource – its children. Our **Clinical Trials Program** is dedicated to offering hope to young patients with rare and complex diseases, particularly those with conditions that currently lack effective treatments. By focusing on clinical trials that target **pediatric populations in the Arab region**, we aim to advance healthcare solutions that will have a profound and lasting impact on the lives of children in Qatar and beyond.

Our program reflects Sidra Medicine's commitment to pioneering new treatments and therapies in pediatric healthcare. In collaboration with our **Research Division**, we are focusing on expanding treatment options for rare and genetic diseases, redefining what is possible in pediatric medicine. This initiative is especially significant given the historical lack of research within the Arab population, which has led to a critical data gap. Many current treatments have shown reduced effectiveness in Middle Eastern, African, and Persian populations because they were not designed with these genetics in mind.

Whole Genome Sequencing

Sidra Medicine is at the forefront of pediatric diagnostics with our state-of-the-art **Whole Genome Sequencing (WGS)** technology. WGS allows us to unravel a patient's complete genetic code, pinpointing the root causes of **complex and rare genetic disorders** with **unparalleled precision**. This empowers us to develop more **effective, personalized treatment plans** that address each patient's unique genetic profile.

Our team of expert geneticists and bioinformaticians uses **advanced technology and meticulous analysis** to deliver reliable and timely diagnosis. With WGS, we are transforming pediatric healthcare, offering hope and clarity to families seeking answers.

Our Multidisciplinary Approach

At Sidra Medicine, we combine **diagnostic excellence** and **cutting-edge technology** with a **multidisciplinary approach** to provide **unparalleled care** for children. Our **Pathology and Laboratory Medicine** department leads pediatric healthcare, with the only CAP-accredited pathology lab in the Middle East. Our international experts specialize in **anatomical pathology, biochemistry, hematopathology, microbiology, and genetics**, ensuring tailored, precise diagnostic services for a range of pediatric conditions, from cancers to inherited blood disorders.

Our **advanced diagnostic tools**, including metagenomic sequencing and Whole Exome Sequencing, enable us to identify **rare infectious diseases** and **genetic disorders** with remarkable accuracy. We offer comprehensive services in pediatric anatomy, gynecologic pathology, clinical biochemistry, hematopathology, immunology, transfusion medicine, and molecular infectious disease, empowering clinicians with the insights needed for effective treatment.

In parallel, our **Pediatric Interventional Radiology** team leads in **minimally invasive procedures**. Through advanced imaging techniques like fluoroscopy, ultrasound, and MRI, we perform precise, image-guided treatments for conditions in vascular, gastrointestinal, musculoskeletal, and oncological areas. This approach significantly reduces the need for surgery, offering safer, quicker recovery times with lower risks. Each year, we perform over 500 procedures, achieving top-tier success rates in the region.

By integrating expert diagnostic services with innovative interventional radiology, we ensure comprehensive care that enhances the health and well-being of children across the globe.

- **What documents should I bring with me?** Please bring your passport, identification card, and any medical records, reports, or images requested by Sidra Medicine prior to your visit. If necessary, ensure your passport has a valid visa for entry into Qatar. Costs and Payment

Costs and Payment

- **What payment options are available for patients without international health insurance?** We offer options for self-paying patients. For more details, please contact us at internationalservices@sidra.org.
- **Does Sidra Medicine accept my insurance?** Sidra Medicine accepts most third-party insurance providers. Please check with your insurance provider or email us at internationalservices@sidra.org for more information.

- **Are charitable assistance programs available?** If you require charitable assistance for your treatment abroad, please check with your local healthcare provider or medical charity in your country.
- **What is the process for embassies managing medical costs?** Our Global Patients Services team will assist with the payment process if your embassy is covering your medical costs. We will guide you through every step.

Stay and Treatment Duration

- **How long will I need to stay at Sidra Medicine?** The length of stay depends on your procedure and recovery process. Our team will provide you with an estimated duration based on your treatment plan.
- **Will a support person be provided during my child's treatment and stay?** A culturally sensitive care coordinator will accompany you to your appointments, providing comfort and support throughout your visit. Our patient experience team ensures you stay informed and feel at ease.

Leading Healthcare Innovation in Qatar

Doha, the ultramodern capital of Qatar, is a dynamic city blending tradition and innovation. It is home to a diverse population from all over the world and has quickly become a key destination for medical tourism.

The healthcare systems in Qatar have been ranked among the world's top five in terms of quality of care. Through effective collaboration and partnerships with institutions like Hamad Medical Corporation, Weill Cornell Medicine – Qatar, Qatar University, the Accreditation Council for Graduate Medical Education - International (ACGMEI), world-class medical centers, and leading research institutions, Sidra Medicine is committed to offering the best medical education and high-quality healthcare to the children and women of Qatar.

Sidra Medicine is part of Education City, a 12-square-kilometer campus housing multiple educational and research institutes. Education City collaborates with organizations and institutions from around the world to facilitate the transfer of ideas, address shared areas of interest, and expand the reach and impact of our research and innovation.

Global partnerships span across industries and academic sectors, including collaborations with TÜBITAK in Turkey, Boeing, Harvard University, MIT, and others, strengthening the fields of industry, academia, tech development, entrepreneurship, and public policy.

We look forward to welcoming you to Doha and providing you with the best possible medical care. With our world-class facilities, exceptional medical professionals, and commitment to excellence, we are dedicated to ensuring your health and well-being every step of the way.
